

# WHAT YOU MADE POSSIBLE

# IN FISCAL YEAR 2016

## SERVICES YOU PROVIDED

### Condemning Cars

We advised 90 Minnesotans to keep money in THEIR POCKETS, instead of throwing money into cars that could break down or aren't safe, with repairs EXCEEDING the value of their car.

### Pre-Purchase Inspections

We provided an average of 4 FREE evaluations per month to ensure, from the start, people are paying a just price for a worthy car that will propel them forward for years to come, NOT leave them indebted and stranded.

### Car Repairs

Our repairs continue to be an average of only 33% of the cost at a for-profit shop, saving Minnesotans and their families over \$202,500 on the 524 repairs completed in 2016 alone!

## 2017 Expansions Because of YOU

**Adding tire repair increases  
safe cars on our roads**

"The Lift told me I needed new tires but I haven't been able to afford them. If The Lift adds tires to their services, I'd like to come and get tires there."

- Linda

**We're opening a 4th bay —  
more repairs;  
less waiting time**

"I rely on [my car] for work, grocery shopping, and kids. Fixing my car helps a lot with four children as a single mom."

- Charletta

**Your generous support helps us provide comprehensive service in the present,  
while also allowing us to efficiently plan for our future.**

# THANK YOU!
