

New Volunteer Opportunity in Minneapolis: The Lift Garage Committee Members

The Lift Garage was founded by Cathy Heying—a social worker who observed that a recurring issue for people on the economic margins was affordable car repair. Since the need wasn't being met, Cathy went back to school to become a trained mechanic with plans to begin fixing cars in her driveway upon graduation. Her responsiveness inspired a group of committed individuals to join her in establishing, in 2012, a nonprofit garage that provides a vehicle to move people out of poverty and homelessness by offering low-cost car repair, free pre-purchase car inspections, and honest automobile advice.

The Lift has continued to grow and mature. Our vision is to continue to refine garage operations, to expand The Lift's capacity to offer quality services, and to explore establishing a training program that would prepare people to work in entry-level positions in car repair.
